Charles Sturt University

An Australian leading university for grads who get jobs*

Master of Professional Information Technology

The Master of Professional Information Technology will put you at the cutting edge of the IT industry – where employers need you to be. Designed specifically for international students, this course gives you all the fundamental tech skills you need – and you'll be able to choose a specialisation in an in-demand area, such as data science, artificial intelligence, cyber security, networking or software development.

Plus, you'll gain essential job-ready skills through an extensive work-integrated learning program. High performing students will also have the option of undertaking a research pathway in their chosen area.

Accreditation with Australian Computer Society (ACS).
